

Payroll Processing Services

Accurate, High-Volume Payroll Processing

Like any other employer, government agencies want their employees to be compensated fairly, accurately and in accordance with policy.

To do this, they need a system that:

- Processes payroll quickly and precisely for regular disbursements of pay
- Keeps accurate records of pay, deductions and leaves
- Minimizes impact to daily routines.

By working with the right payroll partner, you can meet these needs, today and in the future. Our payroll solution is an accurate and reliable service that:

- Links up seamlessly with HRMS and financial systems
- Accurately exports data
- Supports administration of all leave policies
- Manages payroll tax deposits, including complying with state and federal tax reporting requirements
- Handles complex payroll processing requirements
- Ensures accurate payments are correctly applied to employees.

Empowering Your Payroll and HR Staff

We provide user-friendly employee and manager self-service, as well as data entry screens that promote data entry efficiency and accuracy. Plus, our business analytics allow quick access to decision-making information via an easy-to-use, powerful report writer. Your payroll and HR staff can provide information to upper management, who can make quick, well-informed decisions that align with agency goals.

Our payroll solution delivers:

- A delivery model uniquely designed for government organizations
- A scalable solution that can continuously adapt to your future needs
- No upgrade fees for the life of the contract
- An integrated service model that improves efficiency
- An implementation approach that offers a low-risk transition.
