- responding to more than 3 million customer service calls each year

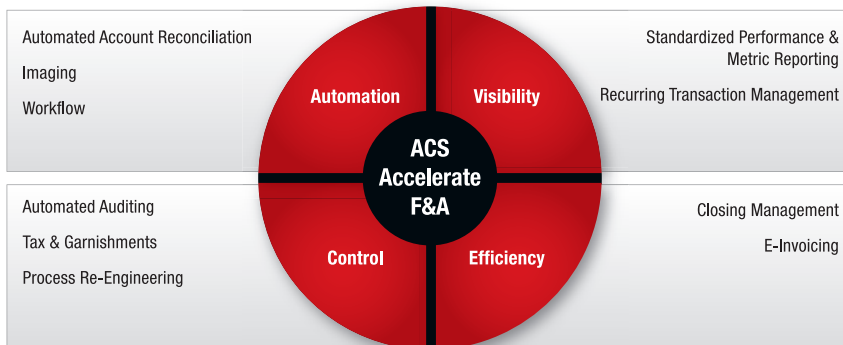

## QUALITY-DRIVEN PROCESS INNOVATION

The ACS AccelerateF&A suite of integrated services delivers process innovation and excellence by applying the principles of Lean Six Sigma to achieve high-performance business outcomes.

- Through our industry-leading **change management services**, we provide a smooth, seamless F&A transition, resulting in predictable outcomes and a sharper focus on business results.
- We preserve the integrity of your business process with our unique **Knowledge Preservation System**: work shadowing and documentation are supplemented by screen and voice recording of all in-house processes to provide a permanent reference that accelerates knowledge transfer and preserves process integrity.
- Our ACS virtual **Centers of Excellence** enable unparalleled sharing of information, innovation and quality improvement—providing all current and future clients with best practices collected from across industries, geographies and experiences.
- Our **activity-based compensation** program rewards high achievers, ensuring that ACS F&A professionals are constantly motivated to pursue excellence and innovation in every facet of service delivery.

## TRANSFORMATIONAL TECHNOLOGY

ACS AccelerateF&A transforms service delivery while redefining standardization and automation. Our robust online portal facilitates maximum control and flexible collaboration.

- **ACS Workflow** enables document management, annotation, routing and tracking through a central repository for rapid, efficient processing.
- **Recurring Transaction Manager** serves as an advanced warning system to spot performance trends and facilitate improved process management.
- **Automated Account Reconciliation** ensures timely completion of any account reconciliation type and features customized, configurable dashboards.
- **Standardized Metric Reporting**, using the most efficient data management integration platform in use today, facilitates real-time report generation.

Best of all, ACS AccelerateF&A technology is designed for compatibility with your current IT infrastructure to ensure a more flexible, more complete transformation of your business—with fewer headaches.
